BANDINFORMATION / PROMOTION TEXT (issued 12/2009)

Suckceed from Austria were founded in 2004: Franky B. (vocals), Mike B. (guitar), Earp H. (bass) and Andy W. (drums). Already in 2006 they publish their first work "Suckceed" and a little later Michl W. (2nd guitar) completed the group in their existing Line-Up. In 2008 - THE year for Suckceed - they were able to win the greatest Festival Battle in Austria and so got the free slot: WACKEN OPEN AIR.

Now with "Sonication 24/7" you find the second own production and can easily keep up with international standards. This is why Suckceed also could play in tue - in Austria well known (- (Szene)) Vienna as a support of MetalQueen DORO PESCH and soon will be on stage with Metal-Legend U.D.O. from Germany.

Change is capitalised with SUCKCEED. Stamping and full of pressure ones Metal-songs, grooving hard rockers as well as the perfect arranged ballads - the Austrians know how to handle their instruments and much more important, they understand it to write absorbing songs and melodies. Their straight hard rock has many elements of the eighties to show, but also can serve more modern sounds.

From the great songwriting to the technical skill up to the earthy sound, everything is presented on stage perfectly and leaves the rocker's heart beat faster.

Very briefly - For whom, searching for diverse and honest Heavy Metal, that simply makes fun, SUCKCEED will be the right address.
